INTRO!!

[image]

SO! GANG! If you're new here, **here's how this works:**

Basically, I use a warrior cats ship tier list (https://tiermaker.com/create/ultimate-warrior-cats-ship-tier-list-150-ships-1561704) and fill it up with my custom tiers, and then list them here. Each chapter is a different tier, I have the ships in a list and my reasoning for putting them where I did right after the name.

extra rules:

I go from bottom to top, so least favorite ships to favorite ships. but I have a few special chapters/tiers:

-creepy as hell (for super weird ships, I'll get into that later) will go right after meme/I like it cuz its funny

-special (this is literally just for ships I just need to explain specially) and this one will go before the top tier

-meme/I like it cuz it's funny and this one will go right after "haven't read about this". :]

-just friends and this one will go right after "uhhh nty" tier

-no feelings which will go before makes no sense, never met

-makes no sense, never met, this will go right before rot in hell

content:

there will be swearing in here, POSSIBLY suggestive jokes but PROBABLY not and if there are they are completely jokes, this is a series about cats for children.

this is mostly just for fun, I'm not too serious about this, I just kinda wanted to put this out there y'know?

added ships/YOUR added ships:

yes, I added a few ships. not to the actual tier list but ships will be in this book that aren't on the tier list. these will be listed here:

Twigbranch x Zelda

Twigbranch x Tree

Twigbranch x Fuzzball

Jayfeather x Fuzzball

Jayfeather x Velvet

and if you want me to put a ship into the tier list I will! 100%! just comment on this line of text with I ship you might want me to rank and I'll do it :3

disclaimer:

if I don't like a ship that you like, that's totally fine. if I treat a ship you like as a joke, I don't care if you like it. I love if you like it honestly. whatever I put in here is not a reflection of the ultimate quality of the ship. brackenfur x sorreltail COULD be warrior cats romance GOLD but I don't like it very much. do I care if you do? absolutely not!

what I'm saying is don't stop liking I ship cuz I don't like it and don't feel bad if you like a ship I don't. don't get angry at me if I like a ship you don't. just pls let's be respectful all around alr??

TIER 15 ~:~ haven't read about this

[image]

this tier is for ships I havent read about or have forgotten about!

i'll just be listing them here instead of giving reasoning for why I put them here, the tier is pretty self-explanatory. this tier is to lyk which ships won't be ranked on the tier list.

Jackdaw's Cry x Shattered Ice

Leopardstar x Sunfish

Moth Flight x Micah

Squirrelflight x Moonlight

Nightcloud x Pickle

Quick Water x Falling Feather (I cant remember who these were but I think I shipped them I cant remember, I'm not sure so I put them in here)

Clear Sky x Star Flower

Bramblestar x Jessy

Feather of the Flying Hawk x Flipclaw

Tigerstar x Sasha (note: other Sasha ships are on the tier list. this is because I read feathertail's graphic novel but not sasha's manga, meaning I haven't read about this ship :3)

Gray Wing x Slate

Gray Wing x River Ripple

River Ripple x One Eye

Nettlepaw x Perchpaw

Squirrelflight x Jessy

Daisy x Floss

TIER 14 :~: meme/I like it cuz its funny

[image]

These are for ships that are either memed on or I think they're so funny but I wouldn't actually rank them anywhere but "ew" if they were serious.

Ashfur x Scourge: obviously I put this here its the reason I made the tier lol. idc if the joke is outdated, I do agree that its not funny anymore but I am not seriously ranking this for the life of me. if that doesn't tell you my opinion on it idk what will

Crowfeather x Harestar: I just find it so funny how they could ever POSSIBLY be realistically shipped. I mean ofc its a ship it doesn't have to be realistic but I don't think it would work for their characters JUST ENOUGH for me to think it would be REALLY FUNNY.

Darktail x Hawkwing: imagine a version of the hawkwing's journey SE where its actually just Hawkwing fighting romantic feelings for darktail while also trying to be loyal to skyclan. i'd read that.

Graystripe x Mille: I just find it so funny that Graystripe is mean in his manga and Millie is nice in his manga, but in the main series Graystripe is kind and in the main series Millie's terrible

Harestar x Antpelt: just think about what this would entail: angry, gross antpelt and scaredy harestar? that's comical but not a particularly good ship, and makes me laugh a little too much for me to consider actually ranking it

Harestar x Tigerheart: it's the same concept as harestar x antpelt except they're both alive so its even funnier.

Breezepelt x Harestar: again, just think about what would happen if

this happened: breezepelt demands control of windclan, harestar provides, chaos ensues.

Smudge x Princess: so all of a sudden now that rusty's gone you want his sister? goddamn smudge what kind of down baddery is this

Goosefeather x Pinestar: goose feather ships always make me laugh. trying to imagine them communicating as a couple is really hard but when I actually get an idea of it it's very funny

Leafstar x Sol: "hey leafstar I actually took your children, not because I wanted clout, but because I wanted to be the FATHER of them. pls marry me leafstar" type beat for this one. its funny, but not really a real reason to ship it 2 me -_('^')_/-

Yellowfang x Russetfur: it's so confusing how this even got on the tier list that it makes it funny

Nightcloud x Sorreltail: who is making these rare pairs

TIER 13 ~:~ creepy as hell

[image]

this tier is for ships that are just creepy, be it age gap or incest they make me feel weird

Mapleshade x Spottedleaf: when one character kills another it seems like the warrior cats fandom goes WILD. I just don't get it lol

Mapleshade x Nightcloud: Mapleshade x Spottedleaf if it made even less sense

Sunstar x Thrushpelt: if Thrushpelt is allowed to date sunstar who is allowed to date moonflower who is bluestar's mom that just paints a weird picture that I really don't like thinking about.

Breezepelt x Antpelt x Heathertail: idk man this one just has a weird feel to it. heathertail didn't like the dark forest at all and if breezepelt tried to approach her with something like this with ANTPELT I don't think that would go over too smoothly, plus something about shipping heathertail and antpelt together makes me feel weird abt this one

Squirrelflight x Leafstar:Leafstar was an adult by the time squilf was born, so it makes me kinda iffy

Bristlefrost x Stemleaf: we'd have a spotted x thistle again if Stemleaf liked her back

Firestar x Spottedleaf: Spottedleaf doing to fire what thistle did to her is grrrrrrrrross

Sol x Purdy: I should've put this one in the funny tier because oh my god who decided purdy could be in love with young dudes.

Darktail x Sleekwhisker: I like that Sleekwhisker was in love with darktail. adds some spice and extra characterization for her. but if darktail returned that? ew. ewewewewew.

Frostfur x Yellowfang: yellowfang is too old to be with somebody who becomes an elder after the first series.

Mapleshade x Smoke: Mapleshade x anyone living is always going to be creepy. in fact I don't really think mapleshade is shippable at this point, more on that later

Bluestar x Goldenflower x Yellowfang: blue and yellow are too old. bluestar CANNOT be shipped with somebody who was lionheart's brother, lionheart grew up after whitestorm(?) and snowfur was whitestorm's mom and bluestar's sister. it would make her old enough to be golden's mom which would create a *weird* dynamic to say the least

Leopardstar x Mistystar: just realized that in the first series these two are the same age. I just put this here because in my eyes mistyfoot is dead and cant be shipped with, misty*star* is basically onestar at this point, rejecting ideas, trying to get riverclan to stand alone, saying they wont help because theyre fine without helping? wack

TIER 12/11 :~: no feelings/ makes no sense, never met

[image]

the reason this is split is bcz tier 11 only has 1 ship in it

and here that is

Bone x Brick: I just don't care

DIVIDER

makes no sense, never met

Squirrelflight x Nightcloud: I think I understand where this comes from, crow x leaf so squirrel x night.but idk, I think they HAVE each other's energy but they're just both too bright to be in the same room imo

Russetfur x Sasha: this one's just weird, I don't understand it

Spottedleaf x Mousefur: they HAVE met but only because Mousefur got super hurt in that battle from the prologue. I think this comes from Spottedleaf calling her "strong". again, just the slightest compliment feeds the warrior cats fandom TOO WELL

Smoke x Sasha: they never talk and it certainly wouldn't make sense, seeing as smoke Is a polite, excitable lady who's hopelessly in love with a clan cat and oh my god she's literally kind Sasha. Sasha does want to confide in somebody about that but it is in no way the same, tigerstar was a terrible person and arguable so was onewhisker but not like Tigerstar was.

Fallen Leaves x Flametail: whoever made this rarepair needs to be uh kinda normal tbh, they do not talk once and if they do its during the battle in tlh which NOT a great time to be asking somebody out on a date lmaoo

Hawkfrost x Leafpool: I wish this tier list was joking. I know where this comes from, squilf x bramble so therefore leaf x hawk, or leaf x moth so why not try the other sibling? oh, right, why not try the other sibling... CUZ LEAFPOOL'S A LESBIAN DAWG! cheesus crust.

Hazletail x Pooppyfrost: they just don't talk :D

Moonlight x Sol: warrior cats fandom when two cats are alive at the same time

TIER 10 ~:~ rot in hell

[image]

this tier is for my VERY LEAST FAVORITE ships, there is 100% swearing in this so if youre not cool with that I advise you skip this one lol

Berrynose x Poppyfrost: first of all berrynose is a mean hoe, he's a terrible person, especially towards people like poppyfrost who are just hopelessly in love with him. this relationship doesn't even work well, though they may be funny the ship makes me feel gross looking at in the books, not the kind of way age gap and incest does but like the way bramble x squilf does, the fact its just a terrible relationship.

Cinderheart x Lionblaze: it makes them both more boring, cinderheart used to be an awesome bubbly character until Lionblaze came into the picture and all of a sudden has feelings for cinderheart because she looked at him. I hate this ship with my whole heart, Lionblaze is an asshole, he's just terrible, and cinderheart would've been a great character if it weren't for lionblaze.

Clear Sky x Storm: Clear Sky treated her badly. clear sky was rude to storm, storm felt terrible about it and died wishing that she had chosen gray Wing. overall I don't love the "choosing between 2 brothers, one horrible but super attractive and the other ugly but super nice and they're both in love with me" sort of thing,I mean I like storm but I don't like this about her. anyway, I dont like this ship.

Appledusk x Reedshine: it's terrible. their characters don't work at all, reedshine's an asshole and so is appledusk in the worst way. they make each other worse every second that passes by when they're on screen together, they cause each others deaths, its clear they don't ACTUALLY care for each other, or at least their

relationship doesn't seem natural.

Appledusk x Mapleshade: believe it or not my problem with this ship is mostly with appledusk (minus the mapleshade murdering appledusk part obvi) just being a little shit. cheating on mapleshade, showing almost no affection towards mapleshade, rejecting their kittens, rejecting mapleshade, appledusk is where this relationship turned south and then it turned souther when maple shade literally murders him. I don't know a single person who wholeheartedly ships this.

Frecklewish x Reedshine: frecklewish is an obsessive, depressed lady who just wants her brother back and Reedshine is a motherfucker, I just really don't see it.

TIER 9 :~: ew?

[image]

this tier is for ships I just don't like, simple as that

Mapleshade x Reedshine: I appreciate people trying to switch things around and thats the only reason why this ship isn't in "rot in hell"

Berrynose x Honeyfern: because when this was happening berrynose wasn't a hoe

Tigerstar x Scourge: enemies to lovers? I like enemies to lovers, especially when its slow so idk Im probably biased

Brightheart x Cloudtail x Daisy: I can definitely see cloudtail wanting to do this but then getting angry at bright and daisy for loving each other because he actually wanted more of a polygamy thing.

Needletail x Rain: rain never shows love for needletail like needletail shows to him. I also really don't like how angry, fierce needletail falls in love with a man and completely melts around him, her whole character disappearing into "I'm going to flirt with you now".

Ravenwing x Birchface: Ravenwing is too angry at forbidden romance for this to work. it would be contradicting for him to have been in love with birchface.

Sparkpelt x Larksong: this is similar to needle tail x rain, where the fierce woman's personality molds into being submissive and stuff just cuz their man is around, I don't like that.

Blackstar x Littlecloud: I only really don't like this one bcz littlecloud would never return those feelings, black star is a xenophobic little shit and littlecloud is a sweet, polite medicine cat. I couldn't see them in a healthy relationship.

Bluestar x Oakheart: I don't like how bluestar doesn't even KNOW Oakheart, they meet like twice and then its decided that theyre in love and then they have babies on their first date. what the hell warrior cats?

Alderheart x Velvet: this would be much higher if they went harder on velvet's absent mind esque personality. but for now? velvet is just a kind fluff ball. pretty cute, but I wish she had more of a personality. the reason this ship is so low is less like a disliking for the ship and more like a nit-pick with velvet.

Daisy x Squirrelflight: squilf needs somebody who will do crazy shit with her and daisy is obviously NOT THAT. so yeah lol -_('>')_/-

Dovewing x Dawnpelt: I know where this actually came from its the "lets try the sibling" thingy and honestly its not TOO bad, dawnpelt is basically just a more outspoken Tigerheart. but I personally just don't think it works

TIER 8 ~:~ uhmm nty

[image]

this tier is for ships I'm just not a fan of. like i can understand why somebody would ship them but I don't.

Poppyfrost x Jayfeather: I understand it, yes, but I don't ship it. I like them much more as friends.

Longtail x Mousefur: Im a fan of the aro/ace Mousefur hc

Mapleshade x Myler: i used to be a crazy glazer of this ship but i just dont care anymore. mapleshade is a psychopath, she cannot be shipped.

Squirrelflight x Shrewpaw: they barely met, Shrewpaw doesn't even have like... a personality, it's just like idk I just don't like this one very much

Tawnypelt x Rowanclaw: I just feel like tawnypelt doesn't belong with rowanclaw. their personalities certainly don't match and I cant see tawnypelt ever enjoying his company, especially after rowanclaw publicly embarrassed her at a gathering.

Firestar x Graystripe x Sandstorm: I would rather this be a firestar polygamy thing where he's in a relationship with sandstorm and graystripe, but their relationship certainly isn't poly, I can say that.

Blackstar x Russetfur: I just don't ship Russetfur with anybody, shes just another boring, stubborn shadowclan cat.

Heathertail x Lionblaze: Lionblaze literally daydreaming about killing Heather tail is super terrible. heatherPAW x lionPAW? cute. as adults? wtf.

Dustpelt x Ferncloud: I don't like them together. ferncloud is lesbian. its just true. also, fuck dustpelt.

Bluestar x Goldenflower: if Goldenflower weren't as old then it

would be just fine.

TIER 7 :~: just friends

[image]

these are characters I think are definitely friends and I'm more positive about the ship than the tier before this.

Mousefur x Purdy x Longtail: theyre a friend group, definitely. but not in a relationship. I see where this could be shipped, though.

Bluestar x Thrushpelt: somebody who has been commenting on my last two tier lists low-key opened my eyes bro 💀 they work a lot better as friends narratively and just... with their characters

Cinderpelt x Sandstorm: I definitely think that before sandstorm actively started chasing after fireheart they were really good friends and talked to each other about how much they wuved firestar loll

Crowfeather x Nightcloud: divorced parents with a good relationship, I like this. please don't put them together, they work much better as friends gang

Crowfeather x Squirrelflight: they definitely are friends, I like how they were both apprentices on the journey and I think they could confide in each other for that. in a starless clan they bring this up and I think its cool. their friendship obviously Is still there and strong, but it's not romantic between them. I certainly get it tho

Daisy x Brightheart: I think they're both friends now, but the friendship isn't very strong lol

Fallen leaves x Jayfeather: theyre friends. they're DEFINITELY friends, I know this. but jayfeather is probably angry at fallen leaves for taking hollyleaf away for 10 years but y'know, I'm sure they made up

Featherwhisker x Thrushpelt: I imagine they spent time together while spottedpaw was in the medicine den was nice for them. I just don't think they're anything more than friends

Firestar x Smudge: the embodiment of the chapter title

Feathertail x Brook: If feathertail lived longer I wouldve loved a poly relationship with ferncloud Brook and feathertail but unfortunately feathertail lived for about 10 chapters soo

Spiderleg x Sootfur: I like the angry x sweet dynamic but I actually like these two more as friends :3

Firestar x Dustpelt: Firestar gave Dustpelt squirrelflight to mentor. if that doesn't show their progression as friends idk what does lol. but I don't like these two as a ship.

Cinderheart x Jayfeather: I don't even like these two as friends that much tbh. this ship is bullshit and cinderheart belongs with hollyleaf. my point about this stands forever and ever, enjoyers of this ship are always pretty cool tho!

Jayfeather x Willowshine: theyre definitely friends, but I ship willowshine with hollyleaf too. damn hollyleaf keeps stealing jayf's bitches loll

Ivypool x Antpelt: I like to think ivypool felt bad about hurting antpelt, but only cuz he was her friend. I hc ivypool to like females and feminine males, just generally feminine cats

Briarlight x Rosepetal: I just think they're only friends. I don't really see why somebody would ship them but they're cute as friends

TIER 6 ~:~ ship = :_/

[image]

(the emoticon is a side smile btw) this tier is for ships I understand why people ship them and ship it a lil. like I LIKE the ship I just don't ship it THAT much y'know?

Kestrelflight x Jayfeather: I like this as a one-sided relationship kinda. liiike kestrelflight likes Jay feather and if kjayfeather was told kestrelflight liked him jayf would start considering and eventually enjoy kestrelflights company even more. I also find it cute that kestrel and Jay are prefix yknow?? love BIRDS hahah

Sunstar x Moonflower: just a cute ship

Nightcloud x Leafpool: crowfeather exes? sign me up!

Oakheart x Graypool: I think their personalities work but its really sad that oakheart just took graypool as a mate so that they wouldn't suspect that he liked bluefur. its honestly really sad and I feel bad 4 graypool

Snowfur x Thrushpelt: oh I WONDER why snowfur was SO interested in whether bluefur and Thrushpelt were together huh...?

Snowtuft x hawkfrost: idk I feel like I could fit snowtuft into any dark forest ship and like it

Cloudtail x Swiftpaw: in an au where swiftpaw survived instead of brightheart this is super cute, but I couldn't see this happening if they both survived or before the incident. <-- that's really its only flaw tho.

Twigbranch x Finleap: I prefer other twigbranch ships, but otherwise this is pretty cute! they belong, I feel like, and they're PREEETTY cute after they make up. I couldn't really imagine twig's lovelife going any other way. the NUMBER ONE twigbranch fan approves of this ship, but just barely

Spotfur x Needleclaw: if needleclaw had been more normal about forbidden ro then this would be higher

Brackenfur x Sorreltail: they're just cute. I mean what else do I say

Cinderpelt x silverstream: lets pretend cinderpelt was sad about silverstream dying because cinderpelt failed, lets pretend cinderpelt was about silver stream dying because they were in love

Daisy x Ferncloud: they could be two moms taking care of kittens in the nursery! pretty cute :3

Billystorm x Leafstar: if I didn't headcannon lesbian Leafstar so hard my bones broke this would be higher. they fight and then get back together, a healthy thing for relationships to do, they communicate, and most of all they love each other. this is just teeth rotting sweetness :]

Goosefeater x Hawkheart: I like these two because they both didn't really want to be medicine cats. I like to think they talk to each other about that behind the scenes :D

Gray Wing x Storm: would be higher if gray Wing got with storm AFTER TURTLE TAIL DIED God DAMN IT gray Wing TF IS YOUR PROBLEM just LOVE TURTLE TAIL.

Hazeltail x Hollyleaf: good and cute.

TIER 5 :~: ship = :D

[image]

this tier is for ships that are all good and well, I think they're cute and I ship them harder than the ships in the last tier.

Leafpool x Cody: they were each others' childhood crush but never told each other so they never got together. that's my hc :3 lesbian leafpool for the win 😎

Leafpool x Sorreltail: I used to feel really weird about this one because "mothpool :(" but now that I discovered that polygamy is real and not just for "sluts" (I was wack) I ship this only for polygamy

Leopardstar x Tigerstar: I like this only in a narrative sense

Minnowtail x Mousewhisker: if only we got more than one scene with them..

Tree x Violetshine: I find it so funny that tree immediately tried to flirt with violetshine. it was cute, funny, and when violetshine liked him too I got excited. FINALLY something that wasn't "I hate twigbranch because she wants to be happy" in her chapter

Violetshine x Zelda: I'm not sure whether I like tree x violetshine or violetshine x Zelda more but these two are cute! they're trauma bonded and helped each other get through darktail a lot. love this one

Jayfeather x Velvet: love! Velvet is a soft sweet lady and jayf would enjoy that :3

Jayfeather x Fuzzball: also love this one a lot. its silly.

Turtle Tail x Bumble: if turtle Tail stayed with bumble THAT long

SOMETHING had to happen with them istg

Whitewing x Birchfall: whitewing stayed an apprentice EVEN LONGER just for birchfall! cute. if only birchfall actually RETURNED THE FAVOR THO. if he did, this'd be higher.

Blackstar x Sol: in a narrative prospective this is very interesting, so whenever its mentioned Im like "yes yes yes I'm listening PLEASE tell me about your au, fanfiction whatever". if you have a blacksol fanfic on ur profile COMMENT HERE PLEASE!! I love reading those, they're SO interesting!

Bone x Scourge: neither of them are straight, and also they trust each other. CUTEEEE.

Twigbranch x Tree: I see them! its cute.

Alderheart x Needletail: I used to ship them a ton but I find it REALLY sad that needletail low-key does *not* care about alderheart at all so uhhhh yeah

Briarlight x Dovewing: the two sisters who got treated horribly for doing literally nothing (except I was an ivypool kin even though *ivypool* was being the terrible person) and likeee I see it, its cute, like I UNDERSTAND it and if somebody ships it I'm more so curious as to how it would work out in their eyes and stuff, y'know? so like idk if *I* actually ship it or if I just find it interesting or sum

Ivypool x Fernsong: I get they're related and stuff but ok lets be real: their common ancestor: firestar. ivypool is cloudtail's daughter's daughter, and fernsong is firestar's daughter's son's son. they share a great grandfather BUT THATS A GODDAMN GREAT GRANDFATHER. I think they're far enough from each other to be ok 🧐 anyway yes theyre cute, though I wouldve preferred nothing if it wasn't going to be ivypool x blossomfall.

Frostfur x Lionheart: they're an arc one couple that don't have much to do with each other but still, there were together. I have no problems with this ship, therefore I don't think it belongs anywhere lower than here

Gray Wing x Turtle Tail: they're so cute! gray Wing needed somebody like turtle tail :3

Graystripe x Silverstream: I just like them so much PLSSS omg

TIER 4 ~:~ THIS SHIP!!! YAY!!!

[image]

this tier is for ships that I enjoy greatly, and get very happy when I see them out and about on the internet. just generally cool ships that I enjoy seeing and ship pretty hard

Leopardstar x Sasha: a good ship, I appreciate this one

Littlecloud x Whitethroat: I like that they trusted each other enough to hide out in that little tunnel under the thunderpath. they went through their hardest years together and I like to think that when ShadowClan had yellowcough littlecloud was wishing he had Whitethroat again

Needletail x Sleekwhisker: I like their dynamic, sleekwhisker was always very calm and almost seeming like a sociopath LMAO and Needle tail just rushes into shit and stuff idk I like them!

Shadowstar x Windstar: the two women? LOVE!

Rootspring x Bristlefrost: they're perfect, they're sweet, and they belong with each other. lets be real, rootpaw being head over heels for bristle was really cute, and bristle eventually warming up to him was also very heartwarming. the way they were thinking about each other in the dark forest while being literally chased to death, the way rootspring escaped double death because "bristlefrost is up there :(" literally broke my fucking heart SOMEBODY GET HELP. I will NEVER RECOVER. if only they were written better, this would probably be top tier. it felt kind of rushed, the way like over four chapters of spending a lil bit of time with root bristle just immediately converted to being in love with him. that's really my only issue with them tho!

Nightcloud x Feathertail: this is a StarClan ship, obvi (if Nightcloud ever died) but in an au where feathertail survived? I like this.

Heathertail x Hollyleaf: the "lets try the sibling" that I REALLY LIKE. Heather tail being like a calm "fun enthusiast" is wonderful for hollyleaf. love these two!

Lionblaze x Icecloud: the picture on the tier list for them sums their relationship all the way up PERFECTLY

just look

[image]

Spotfur x Stemleaf: they were so adorable in tbc and spotfur naming stemkit stemkit literally made me want to die on the spot. devastating. again, I will never recover

Mistystar x Mousefur: it has to be mistyFOOT x Mousefur for this to work. and yet still mousefur x aro/ace spectrum is much more appealing.

Bluestar x Crookedstar: their relationship in their SEs were super cute! if only bluestar's super edition was actually a good book and let the character that she ACTUALLY had conversations with be her mate. and yet, crooked star x Willow breeze and bluestar x Rose tail are super cuter! (ok the spaces in here? like the spaces between the names? they're autocorrect and I don't really care to change them)

Brambleberry x Echomist: crookedstar's moms! cute!

Breezepelt x Heathertail: heathertails calmer,fun enthusiast personality works great with breezepelts emo ahh personality. I love them!

Briarlight x Jayfeather: I used to be the #1 glazer of this ship but ever since I made that OLD ASS book them that got WAY MORE reads than it shouldve I'm actually sorta ashamed of liking them. WHY DID I PUT THAT BOOK ON THE INTERNET. its still here if u wanna read it but warning its oddly obsessed with swearing and extremely cringe! other than that ITS CUTE I PROMISE

Clear Sky x Bright Stream: they were so cute in the first dotc book! wish they got to like... live.

Firestar x Sandstorm: they are them.

Sleekwhisker x Raven: two evil ladies! its cute, and more importantly... ITS EVIL!! >:3

Cinderpelt x Littlecloud: cinderpelt took care of himmm omggggg cutecutecute

Jayfeather x Foxleap: jayxbriar but BETTER. a LOT better. CUTE!!

TIER 3 :~: THATS WASSUP!!

this tier is for the ships that are ABSOLUTELY GOATED !!

-

Ravenpaw x Barely: gay, happy, what more could you want? they're absolutely awesome together! bisexual barely hc goes hard btw >_<

Oakheart x Thrushpelt: not only do they have the same type in she-cats but their personalities also match together really well!

Sandstorm x Silverstream: Silverstream would realize how bad sandstorm is like.. OK IM JOKING but I think their personalities match up, too.

Berrynose x Jayfeather: in both the tier lists I did before this one, they went in the meme tier, but when I started actually considering them this ship is not only funny, but also could be pretty healthy. while I think jayfeather needs a lot of work before getting into a relationship with anyone, so does berrynose.. so. they could be a mess together <33

Snowkit x Mosskit: <3

Bluestar x Rosetail: everyone please get tremendously real. they are in love.

Tigerheart x Dovewing: I LOVE THM. I LOVE THEM. I LOVE THEm. I LOVE THEM. I LOVE THEM. I OVE HEM. I HOLVE THM. I LOVE JTHEM . I LOVE THEM . I LOVE THEM .I LOVE GHTHN!

Tawnypelt x Feathertail: they both felt like strangers in their clans for a while, both had some form of daddy issues.. I think they work well together.

Firestar x Ravenpaw: I prefer this as a poly thing with graystripe too. but still! cute. its cute.

Goldenflower x Sasha: tigerstar girlies X3

Jake x Tallstar: everyone knew they'd be up here. they work well together, literally FOUNDED gayness in warrior cats alongside ravenxbarley. they are THE obligatory gay ship. and it stays that way.

Snowfur x Rosetail: both very invested in romance for some reason.

Alderheart x Fidgetflake: Twinkies

Brightheart x Cloudtail: you knew they'd be up here. cloud tail is one of those aggressively supportive partners, y'know like "I'm ugly" "NO THE FUCK YOURE NOT. PUT THOSE THOUGHTS AWAY. YOURE THE MOST BEAUTIFUL FUCKING THING IVE EVER SEEN IN MY LIFE AND YOURE NEVER GOING TO SAY THAT AGAIN. I WILL FIND AND STAB YOU IF I EVER SEE YOU FROWN AT YOURSELF IN THE MIRROR."

Crookedstar x Willowbreeze: sooo sweet <333

finish

guys I rly am sorry but I lost the tier list and my opinions have changed anyway...sorry about this :((!!

I hope you had fun

at least I know that I like shadow root and allat IDFK OK BUT THANKS FOR READING!
